

FIASCO

Fiasco is a roleplaying game about ordinary people with powerful ambition and poor impulse control. Inspired by films like *Blood Simple* and *Fargo*, there will be big dreams and flawed execution. It won't go well for them, to put it mildly, and in the end it will probably all go south in a glorious heap of jealousy, murder, and recrimination. Play a complete fiasco in a single session, usually around two and a half hours, with no prep, and watch the fur fly!

Fiasco has been honored with an ENnies Judge's Spotlight award and been shortlisted for an Origins award, a Golden Geek award, and the Diana Jones award.
